B.E. Information Technology student with hands on experience in Java, Python, SQL, MySQL and web development. Knowledge of Data Structures & Algorithms, OOP, DBMS and software development fundamentals, with experience building Java and web based projects. Seeking an entry-level Software Developer or Java Developer role.

Education:

B.E.— Information Technology

Trinity College of Engineering & Research, Pune Affiliated to Savitribai Phule Pune University (SPPU) | 2023- 2027 | CGPA : 8.19 / 10 (Current)

HSC - Maharashtra State Board | 2023 | 63.00%

SSC - Maharashtra State Board | 2021 | 91.20%

Technical Skills:

- **Languages:** C, Java, Python (Basic)
- **Core:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks,
- **Frontend:** HTML5, CSS3, JavaScript, Typescript
- **Database:** SQL, MySQL
- **Tools:** Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Jupyter Notebook

Certifications:

- Programming in Java – NPTEL (SWAYAM)
- Full Stack Web Development with AI Tools - Edunet Foundation | AICTE | EY
- Full Stack Java Development – Codec Technologies
- AI Skills Passport – EY | Microsoft
- Python Developer Internship – Codec Technologies.
- Basics of Data Structures & Algorithms – Simplilearn

Leadership & Achievements:

- **Head of Documentation – TITAN, IT Department**
Coordinated documentation activities and collaborated with team members on departmental initiatives.
- **Smart India Hackathon – Participant**
Participated in a national-level hackathon and worked on a technology-based problem statement.
- **Project Competition – IT Department | Participant**
Presented/participated in an academic project competition.

Professional Strengths:

- Analytical Thinking
- Fast Learner
- Team Collaboration
- Self-Motivated
- Responsible & Organized

Experience / Internship:

Python Developer Intern | Codec Technologies

- Gained hands-on experience in Python programming and application development.
- Worked on debugging, problem-solving, and implementing Python-based solutions.

EY GDS – Edunet Foundation | Full Stack Development with AI

- Gained hands-on experience in frontend and backend development concepts with AI-assisted tools.
- Developed skills in web development, debugging, and application problem-solving.

Divine Tech | Web Development Intern

- Designed responsive web interfaces using Figma and frontend development concepts.
- Worked on responsive layouts and improved user interface design.

Projects:

Student Management System – Java-Based Student Record Management System

- Developed a Java-based application to manage student records efficiently, including adding, updating, searching, and deleting student information. Implemented CRUD operations with a simple and user-friendly interface.

Technologies: Java, OOP, JDBC, MySQL.

AgroTech – AI-Driven Crop Recommendation & Farm Equipment Rental Platform

- Developed a web-based platform for crop recommendations and farm equipment rental, helping farmers make informed decisions and access agricultural resources.

Technologies: Django, Python, HTML5, CSS3, JavaScript, MySQL.

Soil Irrigation System – IoT-Based Automated Soil Irrigation System.

- Developed an automated irrigation system using Arduino and soil moisture sensors to monitor soil conditions and control water supply, reducing unnecessary water usage.

Technologies: Arduino, Embedded C/C++, Soil Moisture Sensor, Relay Module, Water Pump.
